

NIGHTFALL

answer your way to morning

v1.9 · make your character

How it works

Every right answer is a choice: **feed the fire** or **count toward dawn**.

Night 1 needs 5 right answers. Every night after needs one more.

The fire pushes them back and burns down constantly. Tap **FEED** to add one log at a time.

At dawn they flee. Use the daylight to stock up on wood.

You carry a blade. Tap **STRIKE** to swing — it catches everything in reach. Kills earn **coins**.

A wanderer turns up every few nights and sells powers and better swords. Find him before he leaves.

Questions you miss come back around, and you review them at the end.
